

# THE TRAVEL INSURANCE YOU'RE LOOKING FOR ISN'T INSURANCE

## WHAT'S THE DIFFERENCE?

Travel insurance and a Global Rescue membership are not the same thing. A Global Rescue membership is more than financial protection. Travel insurance policies are only designed to protect your wallet.

Nobody wants to imagine an emergency abroad. When the unexpected happens, you want the team of medical and security experts at Global Rescue to be there for you.

There is a reason why more than one million members trust Global Rescue, including NASA, U.S. Ski & Snowboard and National Geographic.

## GLOBAL RESCUE MEMBERSHIP INCLUDES

### Field rescue, including COVID-19

We get you from the point of illness or injury to the nearest appropriate medical facility. With no distance requirement, our rescue services are available whether you're close to home (up to \$15,000) or on the other side of the world (up to \$500,000 total).

### Hospital transport

If you need a higher level of care or advanced ongoing care, we transport (or repatriate if necessary) members to their home hospital of choice.

### Medical and security advisory services

Our operations centers are staffed by experienced nurses, paramedics and military special operations veterans.

### Travel assistance

Whether it's a language barrier during an emergency or a lost passport, Global Rescue travel assistance can help with unexpected issues.

### In-house expertise

Speak to an in-house Global Rescue expert on the first call. Personalized communications, recommendations and responses continue until your emergency is resolved.

### Destination reports and alerts

Travel advisories and destination reports for 215 countries and principalities, including daily COVID-related information as well as destination-specific risk assessments and restrictions.
