ESSENTIAL CARDS FOR THE MODERN MAN

• The qualifiers for entrée to high society are changing. Country clubs are out; what's in are exclusive memberships to services that buy you time, access and safety—priceless assets, indeed. From the concierge's concierge to an on-call rescue team, here are five indispensable cards for today's jet-set adventurer to use when the Black Card loses its luster.—Tyler Trykowski

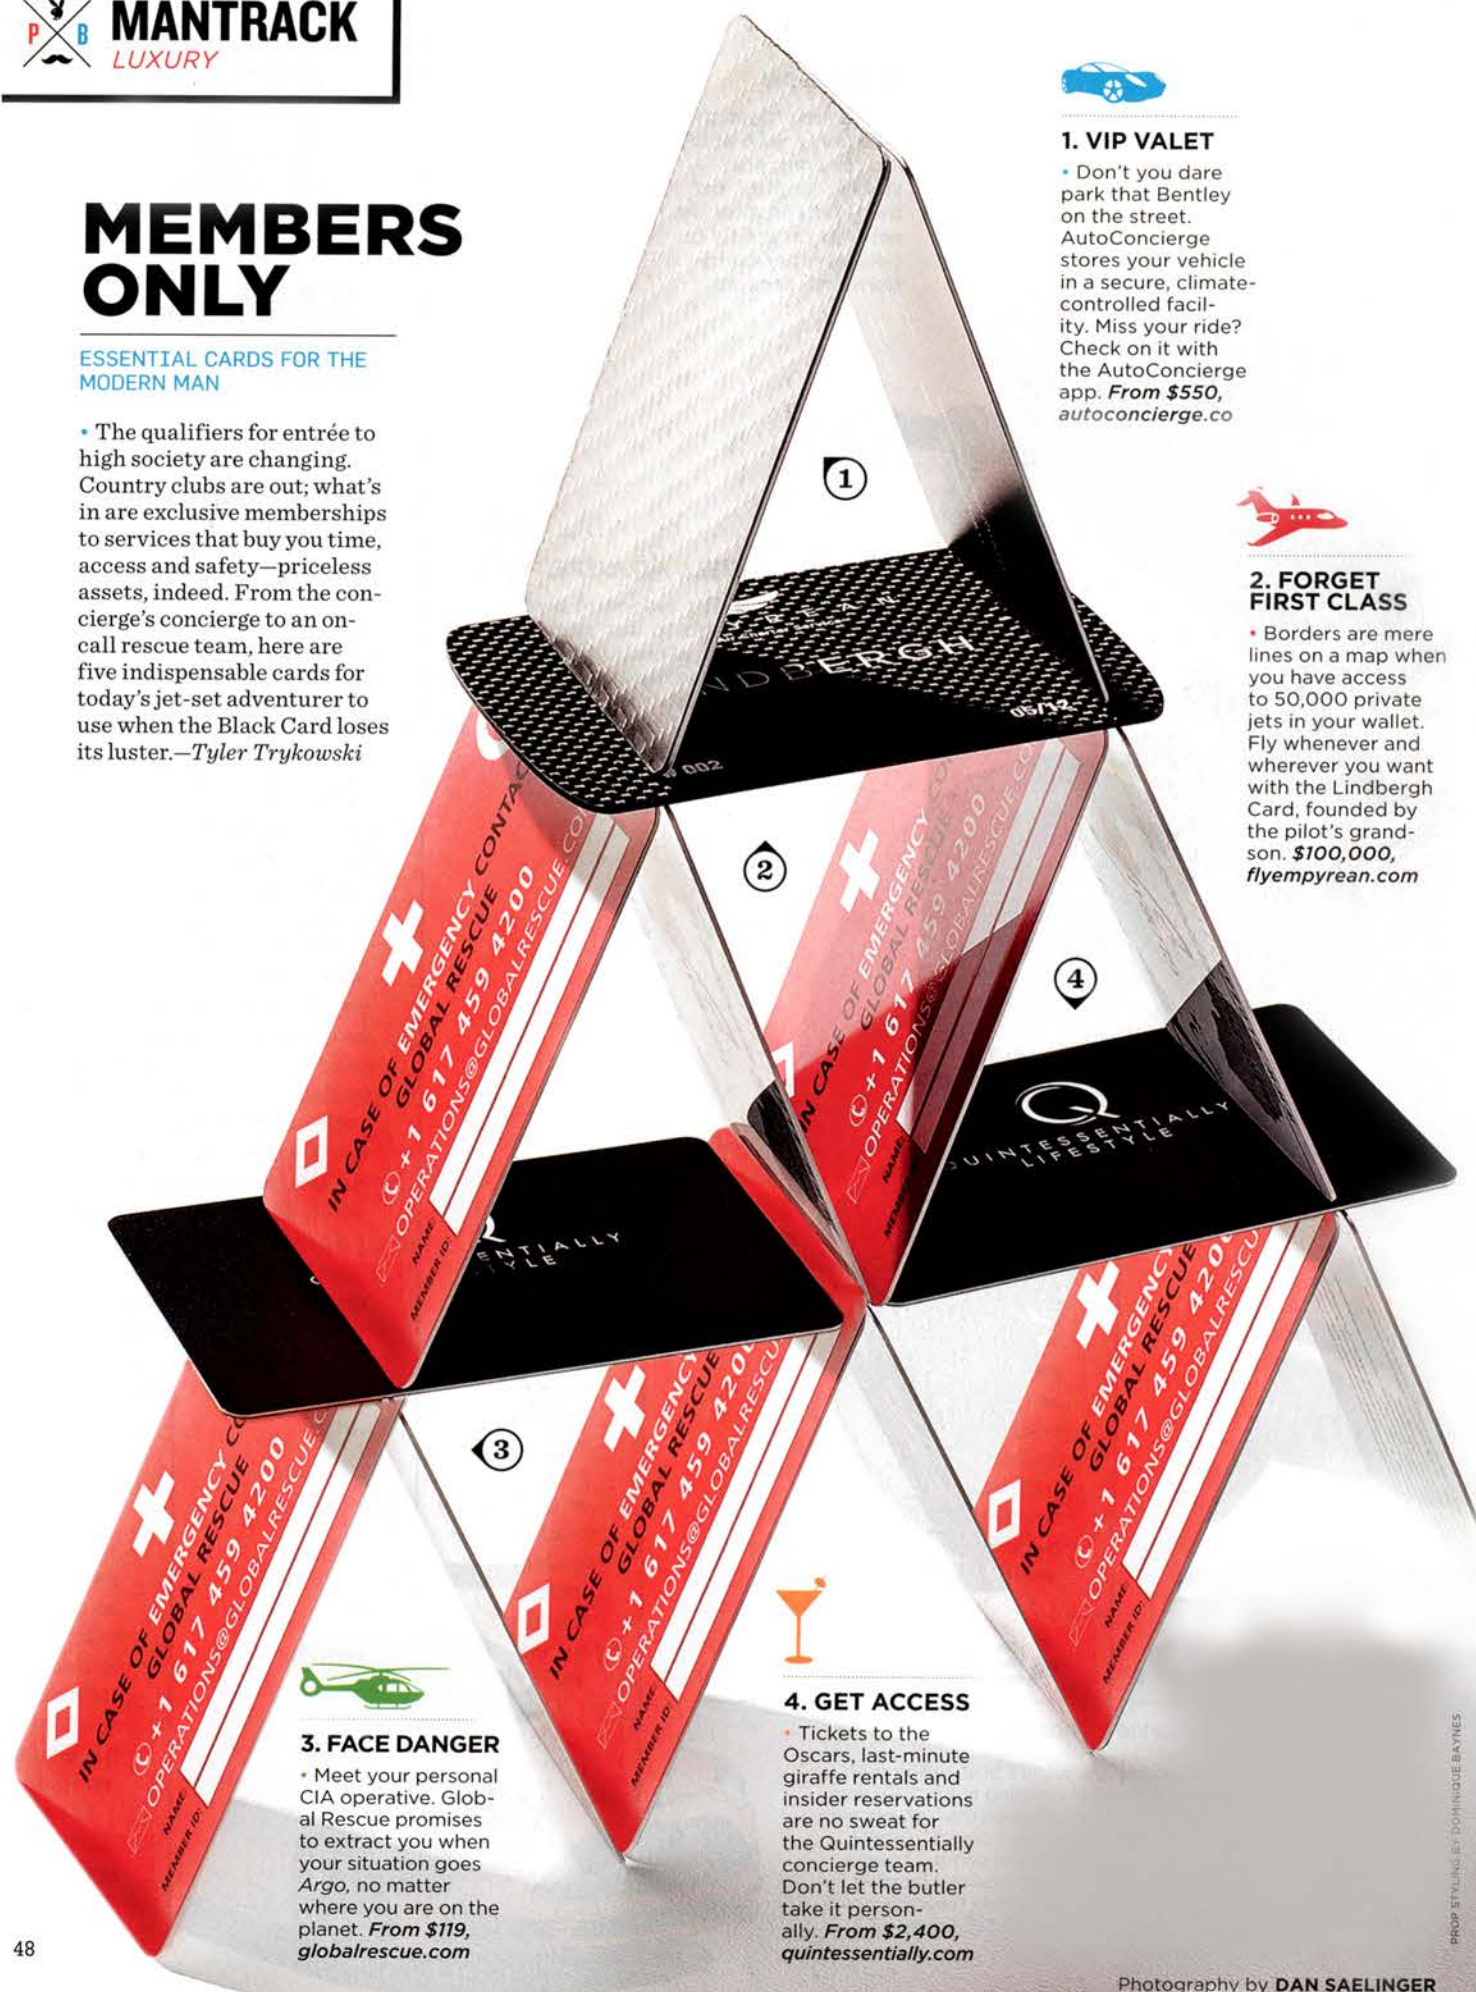

1. VIP VALET

• Don't you dare park that Bentley on the street. AutoConcierge stores your vehicle in a secure, climate-controlled facility. Miss your ride? Check on it with the AutoConcierge app. **From \$550**, autoconcierge.co

2. FORGET FIRST CLASS

• Borders are mere lines on a map when you have access to 50,000 private jets in your wallet. Fly whenever and wherever you want with the Lindbergh Card, founded by the pilot's grandson. **\$100,000**, flyempyrean.com

3. FACE DANGER

• Meet your personal CIA operative. Global Rescue promises to extract you when your situation goes *Argo*, no matter where you are on the planet. **From \$119**, globalrescue.com

4. GET ACCESS

• Tickets to the Oscars, last-minute giraffe rentals and insider reservations are no sweat for the Quintessentially concierge team. Don't let the butler take it personally. **From \$2,400**, quintessentially.com
